

TABLE OF CONTENTS

Looking for information about the coast?

The Coastal Zone Management Plan for the Shoalhaven City Coastline (CZMPS), Volume 1, sets out how Council proposes to manage coastal hazards and risks over the next ten years. It also sets out how Council will manage safe and enjoyable community access for coastal recreation and how Council will work with partners to protect the very high ecological values of the Shoalhaven coastal landscape.

The CZMPS provides an introduction to the factors that must be taken into account when planning for the use and protection of a dynamic landscape. It discusses how Council has made decisions about management priorities and how it will review progress as it implements the CZMPS with partner organisations.

Details about the science that underpins the CZMPS and about the studies, consultation and evaluation processes that have been completed are in Volume 2. Volume 2 also contains information about the regulations and policies that guide coastal zone management in NSW.

Further information about coastal zone management is on Council’s web site,
www.shoalhaven.nsw.gov.au/Environment/Coastlineandwaterways.aspx

CZMP for the Shoalhaven Coastline (Volume 1)

- 1.0 A cared for coastal landscape: Introducing the Shoalhaven Coastal Zone Management Plan..... 1.1**
 - 1.1 Background1.1**
 - 1.2 About this Plan.....1.4**
 - 1.2.1 Purpose and Scope..... 1.5
 - 1.2.2 Shoalhaven’s Future Coast 1.6
 - 1.2.3 Coastal Management Principles and Objectives..... 1.6
 - 1.3 Council’s Strategic Approach to Coastal Zone Management.....1.7**
 - 1.3.1 How does Adaptive Management Work?..... 1.8
 - 1.4 Timeframes for Action1.9**
 - 1.4.1 Who will deliver action on the coast? 1.9
 - 1.5 Who pays for Coastal Zone Management?1.10**
 - 1.5.1 Funding Options..... 1.10
 - 1.6 The Top Ten Management Actions.....1.11**
- 2.0 Coastal Hazards and Risks..... 2.1**
 - 2.1 Processes acting at different time scales2.1**
 - 2.1.1 Long term trends in climate and Sea Level Rise..... 2.1
 - 2.2 Studies of coastal hazards and risks2.3**
 - 2.2.1 Risk Analysis..... 2.5
 - 2.2.2 Results of the Risk Assessment..... 2.6
 - 2.3 Understanding community values, concerns and issues2.12**
 - 2.3.1 Some characteristics of the Shoalhaven coastal community..... 2.12
 - 2.3.2 Community engagement during Plan preparation..... 2.12
 - 2.3.3 What the community said about the coast 2.13
 - 2.4 Coastal Resilience Issues2.15**
- 3.0 Choosing the right actions to care for the coast 3.1**

4.0 Taking action to care for the Shoalhaven Coast 4.1

4.1 Strategies and Actions to care for the whole Shoalhaven Coast4.3

Strategy 1: Move towards fully integrated management of risks to coastal zone values – open coast, coastal lakes and estuarine waterways..... 4.3

Strategy 2: Engage local communities and government partners in coastal management 4.4

Strategy 3: Implement planning system controls for areas with high and extreme coastal risks4.6

Strategy 4: Protect coastal biodiversity and healthy coastal ecosystems 4.8

Strategy 6: Incorporate coastal risks in planning for replacement or upgrade of public assets4.11

Strategy 7: Implement adaptive management procedures to reduce uncertainty and maintain best practice 4.13

5.0 Actions for local communities 5.1

5.1 Strategies and Actions to care for Local Areas along the Shoalhaven Coast 5.1

Strategy 8: Caring for the Coast – Shoalhaven Heads, Culburra and Crookhaven Bight Local Area 5.2

Strategy 9: Caring for the Coast – Warrain Beach, Penguin Head and Lake Wollumboola 5.7

Strategy 10: Caring for the Coast – Jervis Bay Marine Park Area 5.11

Strategy 11: Caring for the Coast – Central Shoalhaven: 5.23

Strategy 12: Caring for the Coast – Narrawallee Beach, Bannister Headland and Mollymook5.28

Strategy 13: Caring for the Coast – Ulladulla..... 5.34

Strategy 14: Caring for the Coast – Burrill Lake and Lake Tabourie 5.39

Strategy 15: Caring for the Coast – Southern Beaches 5.42

6.0 Integrated implementation schedule 6.1

6.1 Alignment with Agency Programs6.1

6.2 Priorities for Implementation6.2

6.3 Implementation Schedules6.2

FIGURES

1.1 Shoalhaven Coastal Zone (note, this figure also shows the hazard areas ref. Section 2.3)..... 1.2

1.2 Knowledge of science and values – working together in the management of the Shoalhaven coastal zone 1.3

1.3 Planning framework for the coastal zone 1.4

1.4 Steps towards understanding and managing coastal risks and mitigation measures..... 1.5

1.5 Framework for adaptive management of coastal risks and four focus areas..... 1.7

1.6 Four key considerations in effective adaptive coastal zone management..... 1.9

2.1 Global average mean sea level (CSIRO, 2012) 2.2

2.2 The rate of sea-level rise around Australia measured by coastal tide gauges (circles) and satellite observations (contours) from January 1993 to December 2011 (CSIRO, 2012) 2.2

2.3 Terms used in assessing coastal hazards (Neilson et. al., 1992) 2.3

2.4 Coastal processes, hazards and risks determine management priorities for the Shoalhaven coast .. 2.8

3.1 Linking vision to action..... 3.1

4.1 How various area wide, local area and estuary strategies and plans will combine within Council’s coastal framework to ensure comprehensive coastal management going forward..... 4.2

5.1 Local Area Strategies provide additional local detail about how the whole of coastline strategies will be implemented as well as providing an integrated view of management for the local area 5.1

5.2 Proposed Areas for Development Control Shoalhaven Heads 5.5

5.3 Proposed Areas for Development Control Culburra Beach..... 5.6

5.4	Development Control for Geotechnical Hazards Penguin Head and Culburra Beach.....	5.9
5.5	Proposed Areas for Development Control Warrain Beach.....	5.10
5.6	Proposed Areas for Development Control Currarong Beach.....	5.13
5.7	Proposed Areas for Development Control Callala Beach.....	5.14
5.8	Proposed Areas for Development Control Collingwood Beach.....	5.15
5.9	Development Control for Geotechnical Hazards Plantation Point.....	5.16
5.10	Development Control for Geotechnical Hazards Hyams Point.....	5.17
5.11	Concept design of works at Callala Bay.....	5.21
5.12	Zoning of Jervis Bay Marine Park (source Marine Parks Authority).....	5.21
5.13	Development Control for Geotechnical Hazards Berrara Bluff.....	5.26
5.14	Development Control for Geotechnical Hazards Inyadda Point.....	5.27
5.15	Proposed Areas for Development Control Narrawallee Beach.....	5.31
5.16	Development Control for Geotechnical Hazards Bannisters Point.....	5.32
5.17	Proposed Areas for Development Control Mollymook Beach.....	5.33
5.18	Proposed Areas for Development Control Collers Beach.....	5.36
5.19	Development Control for Geotechnical Hazards Collers Headland.....	5.37
5.20	Development Control for Geotechnical Hazards Rennies Beach.....	5.38
5.21	Development Control for Geotechnical Hazards Racecourse Beach.....	5.41

TABLES

1.1	Applying Coastal Zone Management Principles.....	1.6
1.2	Risk Management Options.....	1.7
1.3	Top Ten Management Actions.....	1.11
2.1	Coastal Hazard Zone Descriptions.....	2.4
2.2	Likelihood Scale for Coastal Risk Assessment, Shoalhaven Coastline.....	2.5
2.3	Extreme Risks, 2050 and 2100, Unmitigated and Mitigated (with existing management).....	2.6
2.4	Groups consulted about the Shoalhaven Coast.....	2.13
2.5	Community input about the Coastal Zone.....	2.14
2.6	Summary of Community Use, Access and Ecological Resilience Issues.....	2.15
3.1	Types of options available to manage risks to existing development – Buildings and Infrastructure.....	3.2
3.2	Types of options available to manage risks to new development – Buildings and Infrastructure.....	3.3
4.1	Strategy 1 Actions.....	4.3
4.2	Strategy 2 Actions.....	4.4
4.3	Strategy 3 Actions.....	4.6
4.4	Strategy 4 Actions.....	4.8
4.5	Strategy 5 Actions.....	4.10
4.6	Strategy 6 Actions.....	4.11
4.7	Strategy 7 Actions.....	4.13
6.1	Actions that are a Continuation of Present Management and the Implementation Partners.....	6.1
6.2	Actions in the short term (0-2 years) ranked by priority (1: highest, 2: medium, 3: low).....	6.3
6.3	Actions for years 2 to 5 ranked by priority within this time period (1 highest, 2 medium, 3 lower).....	6.17
6.4	Actions proposed for beyond year 5 after the adoption of the CZMPS.....	6.32

APPENDICES and SUPPORTING INFORMATION (Volume 2)

Appendix 1 - References

Appendix 2 - Hazard Study (SMEC), Geotechnical Hazards (SMEC)

Appendix 3 - Shoalhaven Public Asset Coastal Risk Management Review (BMT WBM)

Appendix 4 - Estuary Health Cards & Report

Appendix 5 - Councils Interim Policy - Areas of Coastal Management & Fact Sheet 25 - Coastal Planning Risk

Appendix 6 - Emergency Action Subplan (*To be included in a later revision*)

Appendix 7 - Additional Technical & Remediation Design Documents

Appendix 8 - Status of the Shoalhaven Flood Program (<http://www.shoalhaven.nsw.gov.au/Environment/Floodrisk/Floodprogram.aspx>)
